

1 point 64 points fiber box

Overview

FDB-64 Series 64 ports Fiber Distribution Box, also called Splitter Distribution Box or Fiber Terminal Box, can be used in FTTH projects and is suitable for corridor, basement, room, and building's outer walls application. He'd installed 64-way splitters in a suburban GPON network with 8 km feeder runs. Thirty-two apartments, zero internet. The ONTs couldn't lock onto the signal at all. We ran the numbers together over WhatsApp — his total link loss came to 31.2 dB on a 28 dB Class B+ budget. He'd been off by 3 dB. Telhwa's 1×64 fiber splitter box maximizes port density & reliability for FTTx/data centers. IP65-rated, tool-less design speeds installation. For product datasheet and latest catalog of Fiber Optic & FTTx Solution, ODN solution products, please contact us soon. The fiber access terminal box is with Anti-UV, Ultra violet resistant, rainfall resistant, IP65 waterproof design, an mount outl.
