

10 Gigabit SFP Ethernet-Optical Module

Overview

10g SFP+ Copper: Fully Compatible with 100+ Vendors, such as: Netgear, D-Link, Supermicro, Mikrotik, Fortinet and Other Open 10gb switch. Data Rate: 10gbs, Interface: copper RJ-45 connector, Low power consumption ≤ 2.5 W, 10GBase-T module for CAT6A/CAT7/CAT8. The Cisco ® 10GBASE SFP+ modules (Figure 1) give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications. Cisco SFP+ modules offer the following features and benefits. *Up to 400 m with OM4 and 300 m with OM3. Power Consumption CLASS 1 LASER PRODUCT, IEC/EN 60825-1:2014 Do not look into the ends of the fiber optic. Intellinet Network Solutions 10GBase-LR Fiber SFP+ Optical Transceiver Module, model 507479, is the right choice when it comes to connecting two buildings at 10 GbE speeds with single mode fiber. With a duplex LC connector and single-mode fiber support, these LC SFP modules provide reliable data transmission up to 20km. Featuring a DFB transmitter, PIN. If the SFP-10G-ER-1310 is connected to a 10Gbase-ER standard optical module (1550nm, 10GE, 40km), the maximum transmission distance is only 20km due to different specifications such as wavelength and receiving sensitivity.
