

Botswana Lighting and Power Busbar Prices

Article Overview

Busbars in Botswana are available in various types, including 150A power distribution blocks and tin-plated copper flat bars, with prices typically ranging from BWP 200 to BWP 800 depending on size and material.

Types of Busbars Available

1. 10-Point Power Distribution Block (150A)

- **Material & Rating:** Insulated busbar rated for 150A, suitable for high-demand electrical applications.
- **Features:** #8 terminal screws, two 1/4" studs, insulation covers, and complimentary electrical grease to prevent corrosion and enhance connectivity.
- **Applications:** Ideal for automotive, industrial, and commercial installations requiring multiple connections to positive and negative systems. Also suitable for DIY home automation projects ().
- **Price Range:** Typically around BWP 400–600, depending on supplier and shipping options.

2. TEN-HIGH Tin-Plated Copper Flat Bar

- **Material & Dimensions:** Tinned copper ($\geq 99.9\%$ purity), 3mm thickness, 15mm width, 1000mm length. Tin plating improves corrosion resistance and electrical conductivity.
