

Control Panel Fiber Optic Connector Price

Article Overview

Control panel fiber optic connectors typically range from \$5 to \$50 per unit, depending on type, mode, and assembly configuration.

Pricing Overview

- **Standard Fiber Optic Connectors:** Individual connectors such as ST, SC, LC, or MPO for single-mode or multimode fiber generally cost \$5–\$20 each on platforms like DigiKey and Amazon, depending on the manufacturer and specifications (e.g., ferrule type, boot size) .
- **Panel-Mount Assemblies:** Pre-assembled connectors designed for control panels, including feed-through or adapter plates, are priced higher, typically \$15–\$50 per connector or per assembly, reflecting the added hardware, alignment precision, and environmental protection .
- **Premium or Field-Installable Connectors:** High-precision connectors like the Senko ST or ECO Series for single-mode fiber with bayonet-style ferrules and spring-loaded alignment can cost \$20–\$40 each, especially when supplied with panel-mount adapter plates or dust caps .

Factors Affecting Price

- **Connector Type:** ST, SC, LC, MPO, and MT-RJ connectors vary in cost due to complexity and demand.
- **Fiber Mode:** Single-mode connectors are generally slightly more expensive than multimode due to tighter alignment tolerances.
