

# Fiber Distribution Box Splicing

## Overview

These aluminum enclosures are designed for high-density splice storage, with emphasis on proper fiber management and versatility of cable port seals and cable tie-down features. In offices, splice boxes serve as central hubs for network connections between departments, to facilitate maintenance and troubleshooting. The boxes ensure an organised cable structure and contribute to an aesthetic working. Future-proof high-speed data transmission: Splice boxes from Phoenix Contact ensure continuously reliable real-time data transmission. Safe and reliable high-speed. Photographs and graphics are not to scale and do not represent detailed images of the respective products. Outdoor Durability: Rated IP55, it provides reliable mechanical protection for both indoor and. It integrates splicing, signal splitting, storage and cable distribution function within a single enclosure for outdoor installation environments.
