

# How much does a 24-core armored optical cable cost

## Article Overview

A 24-core armored fiber optic cable typically costs between \$1.15 and \$6.50 per meter, depending on type, brand, and specifications.

### Price Overview

The cost of a 24-core armored optical cable varies based on fiber type, armor, and quality:

- Single-mode (OS2) armored cables: Generally range from \$0.30 to \$1.50 per foot (approximately \$1.00 to \$4.90 per meter) for standard outdoor armored types, with premium brands costing more due to higher-quality glass and lower attenuation .
- Multimode (OM3/OM4) armored cables: Typically cost \$1.50 to \$6.00 per foot (around \$4.90 to \$19.70 per meter), with armored versions adding extra cost for steel tape protection against physical damage .
- GYTY53 24-core armored outdoor cable: Marketed as a steel tape armored, double-jacket cable suitable for direct burial and long-distance LAN applications, it is described as affordable and widely available, though exact per-meter pricing may require contacting suppliers .
- ADSS 24-core all-dielectric self-supporting cable: Designed for aerial installations, lightweight and non-metallic, offering cost-effective deployment, though pricing depends on span length and sheath type .

### Factors Affecting Cost
