

How much does a meter of mesh cable tray cost in Mauritania

Article Overview

A meter of wire mesh cable tray in Mauritania typically costs between \$10 and \$25, depending on material, coating, and supplier.

Wire mesh cable trays, also known as basket trays, are among the most affordable types of cable trays and are ideal for lightweight wiring in offices, data centers, or industrial setups . The price depends on the material: galvanized steel is common and cost-effective, aluminum is lighter but more expensive, and stainless steel is the highest-priced option for corrosive or hygienic environments . Coatings like hot-dip galvanization or powder coating can increase durability and slightly raise the cost . In Mauritania, suppliers such as Jeetmull Jaichandlall offer MS cable trays that are durable, easy to install, and relatively affordable, making them a practical choice for local projects . Bulk orders or project-based purchases may reduce the per-meter cost further. For budgeting purposes, you can expect \$10–\$25 per meter for standard wire mesh trays, with higher-end materials or custom finishes costing more . When planning procurement, consider additional costs such as installation, supports, and shipping, which can affect the total project budget. Comparing multiple local suppliers and requesting quotes can help secure the best price.
