

Kyrgyzstan 10 Gigabit Single-Mode Optical Module

Overview

This Generic SFP-10G-ER1310 compatible SFP+ transceiver supports 10GBASE-ER1310 and 10GBase-EW1310 throughput up to 40km over single-mode fiber (SMF). 10GBASE-LR is a 10-gigabit Ethernet optical standard that operates at 1310 nm over single-mode fiber (SMF), supporting link distances of up to 10. Small Form-Factor Pluggable (SFP) interfaces from DYMEC provide flexible, and secure high speed optical links in a small industry standard package. They deliver the deployment options and inventory control that network administrators demand for growing industrial networks. Designed to operate in. The Cisco ® 10GBASE SFP+ modules (Figure 1) give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications. Single-fiber bidirectional (BIDI) optical modules must be used in pairs. This module provides a reliable long-reach fiber optic connection.
