

Nordic Relay Protection Company

Article Overview

Arcteq, Vamp Protection Systems, and NR Electric are leading Nordic companies specializing in protective relays and power system protection solutions.

Arcteq

Arcteq is a Finnish, family-owned company headquartered in Vaasa, Finland, specializing in arc flash protection and high-accuracy protection relays. They manufacture all products in-house and focus on research and development to address modern power grid challenges and sustainable energy systems. Arcteq's devices are installed in over 50 countries, serving utilities, industrial plants, offshore rigs, and data centers. Their products comply with IEC 60255 standards and ISO 9001:2015 certification, ensuring high reliability and safety. The company emphasizes rapid after-sales support, with response times under two hours .

Vamp Protection Systems

Vamp Protection Systems, also based in Finland, focuses on arc protection and relays for wind power, utilities, and industrial applications. Established in 2008 as a subsidiary of Vamp, the company provides overcurrent and earth fault relays, along with customized solutions for low and medium voltage switchgear. Vamp is recognized as a pioneer in arc protection technology and maintains long-term partnerships with international clients, emphasizing flexibility and product innovation .
