

Outdoor Intelligent Power Distribution Box Power Management

Overview

This 28U outdoor power distribution cabinet is designed for telecommunications, power, and outdoor energy systems, offering excellent protection and intelligent monitoring. Constructed from high-strength galvanized steel with IP55 protection rating, it withstands harsh. Outdoor power distribution boxes are rapidly becoming essential for industries and businesses expanding operations beyond traditional indoor settings. As outdoor environments—from construction sites and renewable energy projects to events and shipyards—demand robust and weatherproof power. BLIIoT's IPM100 IP67 Remote I/O Module is designed to meet these exact demands. It features short-circuit, overload, overvoltage, and leakage protection. Compact in size. Through intelligent upgrade, the site achieves efficient power generation and supports two-wing services, reducing carbon emissions by 10 tons per year. The upgraded site halves electricity fees and cuts O&M costs by 75%, and reduces carbon emissions by eight tons per year. Widely used in urban and rural power networks, industrial.
