

Performance parameters of cable trays in the UAE

Overview

It regulates methods for assessing the load capacity and stability of cable trays, including straight sections, turns, corners, and connecting elements. Metar is a leading cable tray manufacturer in Dubai, UAE, supplying high-performance steel cable tray systems for commercial, industrial, and infrastructure projects. Our cable trays are engineered to provide safe, organized, and long-lasting cable routing solutions for power, data, and control. A well-organized system using the right cable tray and accessories is the bedrock of operational safety, reliability, and the long-term integrity of any project. It's the essential framework that protects a building's critical electrical and data wiring. Our product range is meticulously designed to ensure durability, compliance with regulations, and operational efficiency. In the UAE, people test the trays to make sure they are strong and safe. These systems are designed to offer strength, easy installation, and long-term reliability across various applications. Premium Construction: Made from galvanized steel.
