

Price List for Cable Trays in Bhutan

Article Overview

Installing cable trays in Bhutan typically costs between \$10 and \$50 per meter, depending on material, type, and installation complexity.

Material Costs

The cost of cable trays varies significantly based on the material used:

- Steel trays: \$5-\$25 per meter; widely used for general-purpose installations due to strength and affordability .
- Aluminum trays: \$6-\$30 per meter; lightweight and corrosion-resistant, suitable for humid or outdoor environments .
- Fiberglass (FRP) trays: \$10-\$50 per meter; ideal for aggressive environments where corrosion resistance is critical .
- Stainless steel trays: Highest cost; used in high-demand or hygienic environments like food processing or coastal areas . Coatings also affect price: hot-dip galvanized (HDG) is more expensive but durable outdoors, while pre-galvanized is cheaper but less resistant to corrosion .

Installation Costs

Installation costs depend on several factors:

- Tray size and type: Ladder trays are easier and faster to install than solid-bottom trays, reducing labor costs .
- Installation height and complexity: Elevated or hard-to-reach areas increase labor and equipment costs .
