

Price of Anti-corrosion Steel Cable Trays in Xinye

Article Overview

The price of anti-corrosion steel cable trays in Xinye varies widely depending on material, size, thickness, and order quantity, typically ranging from \$20 to \$150 per meter for standard industrial options.

Factors Affecting Price

- **Material Type**
 - Stainless steel (SS304/316) offers superior corrosion resistance, ideal for chemical, marine, or coastal environments, and generally costs more due to durability and long-term maintenance savings .
 - Pre-galvanized or hot-dipped galvanized steel provides moderate corrosion protection at a lower initial cost .
- **Tray Type and Size**
 - Ladder trays, wire mesh trays, and perforated trays differ in manufacturing complexity and load capacity, affecting price .
 - Widths typically range from 50mm to 600mm, with lengths of 1-3 meters; thicker side rails or higher load capacity increase cost .
- **Customization and OEM Options**
 - Factory-direct or OEM trays can be tailored to specific project requirements, including dimensions, coating, and perforation patterns. Customization usually increases unit price but ensures compatibility with project specifications .
