

South Africa installs 12-core bend-insensitive fiber optic cable

Overview

Featuring 12 fibre cores within Central Strength Tube (CST) construction, this cable provides robust protection and stable performance for long-distance telecom, FTTH, and data centre applications across South Africa. The Attac 12F CST Single Mode Fibre Cable delivers high-speed, long-distance connectivity with excellent durability, water-blocking protection, and low attenuation. These deployments were aimed at supporting e-government services. We supply micro duct cables for 12/10mm and 14/10mm duct application. Cables are available from 12F up to 288F. This design offers a. A Chinese-invested fiber optic cable manufacturing company in South Africa, in partnership with local firms, has become a backbone of the country's digital transformation after nearly a decade of investment. Ideal for long-distance communication, this single-mode fiber features 12 cores, ensuring robust connectivity and minimal signal loss. These tenders can consist of Request for Information (RFI), Request for Quotation (RFQ), Request for Proposal (RFP), Expression of Interest (EOI) or Request for Tender (RFT) listings.
