

Swiss steel plate explosion-proof distribution box model

Overview

BX53-IV Explosion-Proof Distribution Box operates to safely distribute electrical power in risky areas, eliminating ignition threats. Atex Delvalle provides a custom made facility for hazardous area stainless steel Aisi 304L & Aisi 316L Atex and IECEx Certified junction boxes, terminal boxes, large atex enclosures, Empty enclosures. The Ex junction boxes that we have in stock ready to same day shipping, the full customized. Flameproof enclosure (Ex d IIB+H2), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc.)

- Enclosure: stainless steel. Equipped with specialized hinge. Copper-free Aluminium Alloy enclosure, powder coated surface, window grey (RAL7040) Stainless steel

The cover panel components include buttons, indicator lights, circuit breakers, and operating handles for universal switches, glass windows, etc. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times. Available with a wide range of built in components.
