

XL metering distribution box

Overview

This product covers 3 distribution box series (XL-21/JSD/PZ30) and 3 electrical accessories. Boxes fit 220-500V, with embedded/wall-mounted types; accessories include meters, breakers. The XL-21 Power Distribution Box is used for power distribution, conversion, transmission, control, and on-site operations in low-voltage distribution systems. It is widely applied in power plants, substations, petroleum, chemical, metallurgy, machinery, and high-rise buildings. Was established in Jiangsu, China, leveraging over a decade of specialized experience in sheet metal fabrication. Designed for power plants, substations, industrial enterprises, and commercial. The main distribution box adopts self-design of new components, compact structure, beautiful appearance, easy maintenance, a variety of wiring options for users to choose, it is an ideal alternative to the old XL-21 power cabinet. The switchgear meet the requirements of standard IEC60439 etc.
